Aline Lopes Xavier

Digital & Product Designer · Figma · UX · Front-End · Travel & Tourism

geral@bylx.dev · bylx.dev · github.com/alinelx · linkedin.com/in/alinelx

Greater Lisbon, Portugal · Portuguese & Brazilian national · EU work authorisation

PROFILE

Designer and creative technologist who studied Design & Visual Communication at UFRJ's Escola de Belas Artes, with hands-on digital design work since 2014. I design and ship my own products end-to-end — research, UX, visual design in Figma, and the front-end build — including dark28.pt, a live self-guided tourism web app for Lisbon, and konochan.pt, an e-commerce brand I founded and run. Trained in Cultural Tourism & Heritage (EHTL Lisbon, CET coursework complete), which grounds my interest in travel products. Five years at Accenture evaluating digital content and collaborating with product, QA and engineering teams across US/EMEA time zones. English B2 (C1 comprehension), native Portuguese.

CORE SKILLS

Design	Figma · UX flows & wireframes · design systems (CSS custom properties) · responsive/mobile-first design · typography · accessibility (prefers-reduced-motion, contrast) · Adobe CC (Photoshop, Illustrator, InDesign, XD, After Effects, Premiere)
Research & Product	User-centred thinking · GA4 & Search Console behaviour/conversion analysis · A/B test reading · iterating from real usage data (konochan.pt)
Front-End (design-to-code)	HTML5 · CSS3 · JavaScript/TypeScript · React · Next.js · Tailwind · WordPress/WooCommerce
Collaboration	Product/QA/engineering collaboration at Accenture · cross-time-zone teams (US/EMEA)
Languages	Portuguese (native, PT-PT and PT-BR) · English B2 (C1 comprehension) · Spanish A2 · French A1–A2

PROFESSIONAL EXPERIENCE

Senior Content Review Analyst · Accenture · Lisbon (on-site) · Jun 2021 – present

- Worked daily in the client's internal tracking and documentation tools, in a multinational, cross-time-zone environment (US/EMEA stakeholders).
- Collaborated with QA, policy and engineering liaison teams to refine content guidelines and improve quality metrics, proposing changes based on observed data.
- Senior level since 2025; mentor and first line of support for peers on tools and process.

Web Design Intern · ClickSoft · Rio de Janeiro · May – Sep 2014

- Designed and built client-facing web layouts in an agency HTML/CSS production workflow; produced email marketing, Google Ads creatives and social media content.

PROJECTS

Dark28 — Editorial Web App (live) · dark28.pt · Next.js · TypeScript · React · Tailwind · 2025

Self-guided dark-tourism experience on Lisbon's Tram 28: App Router for editorial SEO and structured data, TypeScript data validation, a single useLocalStorage hook serving four features with no backend, mobile-first.

bylx.dev — Portfolio · HTML · CSS · JS

Canvas pixel-art engine drawn at whole-number scale; greyscale sprites recoloured into day/night palettes; draggable program-style windows; seven-colour design tokens; prefers-reduced-motion support; responsive from 320 px to ultrawide.

konochan.pt — Brand & Online Store · Hostinger Ecommerce · Etsy · GA4 · Search Console

Founded and run an e-commerce brand end-to-end; use GA4 and Search Console traffic, behaviour and conversion data to decide page, catalogue and campaign changes.

luparoad.com — Freelance client project · WordPress · WooCommerce

Complete digital rebrand for a Lisbon optical clinic: identity, WordPress customisation, WooCommerce set-up, content templates.
